All of the remaining BEP funds will be obligated upon the completion of the round you referenced.

Jake

Thanks, Jake.

Not to be too dense, but am I correct that, between what IHCDA already has awarded and what it expects to award through agreements made pursuant to the applications submitted by the October 17, 2016 deadline, you expect that all of Indiana's HHF will be exhausted?

Thanks.

Annette

> Thank you for contacting me regarding the IHCDA's Hardest Hit Funds Blight Elimination Program (BEP). The source of the Hardest Hit Funds (HHF) is the Troubled Asset Relief Program under the U. S. Department of Treasury which is administered by IHCDA. In 2014, IHCDA approached the U. S. Department of Treasury to utilize a portion of Indiana's HHF for a blight elimination program that would prevent future foreclosures by targeting vacant and abandoned homes. The goal of the Blight Elimination Program is not simple to demolish abandoned homes, but to prevent avoidable foreclosures and stabilize property values in Indiana.

> Per your request, I just spoke with Jacob Sipe, Executive Director of the Indiana Housing & Community Development Authority regarding the use/reallocation of "Hardest Hit" funds for East Chicago. The executive summary is that there are numerous regulatory hurdles to allocating this money to West Calumet that have been discussed and disclosed a number of times already (example: the buildings have to be vacant when the application is submitted). Rather than have me relay a lot of details to you, which I will probably get wrong, Jacob suggests you call him directly if you have any specific questions. His direct dial is 317-233-1811. Remember that IHCD participates in some of our other weekly calls, so another option might be to ask this question at a meeting where IHCD has a representative on the line.
